

SEMINAR REPORT

TWO DAYS NATIONAL SEMINAR ON

RECENT TRENDS IN MICROBIOLOGY

26th - 27th SEPTEMBER, 2017

This seminar is conducted by Department of Life science, university of calicut. The purpose of these seminars was to bring together the scholars from various places across our nation, to make some interactive sessions to share and update about the knowledge on the topics. Here the topic gave a sense of necessity of innovative approaches and massive updations for microbiology.

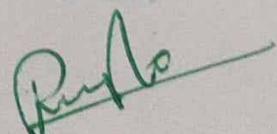

More than 300 participants from different institutions, attended the meeting. The seminar began with inaugural function by Dr. K Mohammed Basheer, honorable vice chancellor of university of calicut. The keynote lecture was given by Dr. Girija, from college of Horticulture. After that the technical sessions were started with the lecture of Dr Mohamed Hatha (prof. Dept of marine biology, School of Marine Science) on the topic 'Microbial forensics'. That gave an exciting vision about the biocrime.

and the emerging area for the forensic microbiology for investigation field. The 1st session taken by Dr. Anishan Banerjee, Ass. prof. IIT Bombay, on 'Bacterial perspective and clonal evolution'. On the same day, the oral & poster presentations of delegates are conducted that give an idea about the methodology of the research approaches. We have one oral presentation from our college. At night the organizers served a cultural event for us. That made an enjoyable & pleasant environment.

Day two served 3 sessions about 3 various and excitable topics, delivered by Dr. Sivash Krishnamachari (Ass. prof. DayanandSagar Institute) Dr. Suchithra TV (Ass. prof in biotech, School of biotech) and Dr. Anitha pm (Assistant prof in microbiology, Gov. medical collage Calicut). After completing the session the validation session began.

The whole program was well organised and comfortable for us. I got a chance to interact with some research fellows and seek answers to my questions about research methodologies. I think that all the students of Life sciences must participate this type of seminars to update our knowledge about our subjects.

Two days' National Seminar on "Recent trends in Microbiology"

Certificate

This is to certify that Dr./ Mr./ Ms. SUPHESH PARAMBAN.....
has chaired a session / participated / done an oral presentation / presented a poster in the
Two days' National Seminar on "Recent trends in Microbiology" conducted by the Department of Life
Sciences, University of Calicut on 26 – 27th September, 2017.

Convenor

Dr. DENO J. SEBASTIAN
ASSOCIATE PROFESSOR DEPARTMENT OF
