

DEPARTMENT OF BIOCHEMISTRY
NATIONAL SCIENCE DAY CELEBRATION
ON - 28TH FEBRUARY 2020

"Women in Science"

Science and technology play a major role in making human lives better and comfortable. Starting from the usage of modern technology in agriculture to robotics, humans made everything possible now with the help of Science. For this reason, Science is respected in every corner of the world. Many great scientists around the globe contributed their entire life to research along with India.

National Science Day is celebrated every year on February 28 to commemorate the discovery of the 'Raman Effect'. Government of India designated February 28 as National Science Day in 1986. On this day, Sir CV Raman announced the discovery of the 'Raman Effect' for which he was awarded the Nobel Prize in 1930. On this occasion, theme-based science communication activities are carried out all over the country. Theme for the National Science Day 2020 is "Women in

Science", which aims to appreciate the contribution of women in the field of science.

The basic purpose of this day is to inspire students to new experiments, attract them to science, and make them aware of science and scientific achievements. Several programs are organized on this day related to scientific activities.

National Science day activities:

❖ Speech Competition

Many students from different departments are participated in the speech competition. National Science Day is an excellent opportunity to make students aware of Science and technology. The speech competition topics are based on Science and technology or the latest trends in the country's technology sector.

❖ Quiz Competition

Conducted an inter department quiz competition consists of multiple teams competing with each other throughout the various rounds. Questions get more challenging as the games proceed. Questions included from different topics such as Science, mathematics, logical reasoning, etc.

❖ Essay Writing Competition

Some students are better in writing as compared to vocal skills. That's why we conducted an essay competition. For students, it was an excellent opportunity to develop their skill sets as well. The topic of essay competitions was 'WOMEN IN SCIENCE.'

❖ Poster making competition

Department of biochemistry conducted a poster making competition as part of science day celebration on the topic "Technology and agriculture: from

tissue culture to cloning” .selected posters after valuation displayed on the department corner.

❖ Science Debates

The debate can be the best way to increase the knowledge of students by counterfeiting two sides. There should be two teams competing with each other in the debate, and every team has to prove they are right by putting forward logical, sensible arguments, facts, and statistics. The topic of the debate was ‘**HOW WILL THE WORLD END....?**’

It is very important to create interest and awareness about Science and technology into students’ minds from childhood. National Science Day is definitely the best way to ignite the students’ interest in Science and technology and appreciate the contributions of many scientists to India’s growing technology.
