## NOTICE INTERNAL EXAMINATION

It has been decided to conduct centralized internal examination for 3<sup>rd</sup> & 5<sup>th</sup> semester BA/BBA/BSc students from 23/10/2017 to 28/10/2017. All the teachers are requested to send the question papers on or before 18/10/2017. Also you are requested to submit the internal marks to the convenor, Internal Examination before 06/11/2017.

 PULPALLY 673 579

**PAZHASSIRAJA COLLEGE PULPALLY 2018-19**  
**FOURTH SEMESTER INTERNAL EXAMINATION**  
**A06- Spectrum- Contemporary Issues**

Time: 3 hrs

Total Marks: 80  
(10x1=10)

**I. Answer the following questions.**

1. Who is the author of a *Portrait of an Artist as a Young Man*?  
(A) James Joyce B. Cervantes c. William Shakespeare D. Michael Tournier
2. In which novel is Comala, a town of the dead?  
A. The Feast of the God B. Pedro Paramo C. Love in the Period of Cholera D. None of These
3. In what accent did the visitor speak to Alassankutty?  
A. English B. Manglish C. Zinglish d. None of These
4. The term yellow shore refers to the quality of turmeric as a .....  
A. Medicine B. Antidote C. Cosmetic D. Ingredient in curries
5. Whose is described as the opera 'you' hate most in "What work is"?  
A. Wagner's B. Tucker's C. Domingo's D. None of These
6. No one puts their children in a boat unless the water is .....
7. Where did Najab sleep in the evening before slipping in to Fathimah's room late at night?
8. Who is the woman with ashen hair?
9. The narrator of *Jamaican Fragment* noticed two boys- playing in the garden.
10. According to Silkin animals are our.....

**II. Answer any ten of the following questions in two or three sentences. (10X2=20)**

11. How does Ananda Michalopoulou define a hero?
12. How did Vishwanathan fall in to the death trap?
13. What according to the visitor can make Alassankutty richer?
14. Why Turmeric is called 'the golden Heroine of the Kitchen's Platter'?
15. Comment: "no one bums their palms/under trains".
16. Why was Fatima not happy about marrying Mahfuz Ali?
17. What uniform does the poet refer to in the phrase 'beneath all uniforms'?
18. How is death presented in the poem 'Death Fugue'?
19. What made the narrator think that the black boy could be the son of a servant of the white boy's home?
20. What according to Malala does Malala Day stand for?
21. What was Arnold's feeling as he sat in the bus by the window?
22. What does the author describe as a more tiring task than anything else in 'Selections from the Cry of the Gull'?

**III. Answer any four of the following questions in a paragraph. (4x5=20)**

23. Odysseus as a prototype of the modern refugee.
24. How does Levine describe 'work' in the poem?
25. The Universal humanism in "No Men are Foreign".
26. Death as the theme of Paul Celan's poem.
27. Why does Malala consider 'the Pen is mightier than the Sword'?
28. Comment on the title "The Cry of the Gull"?

**IV. Answer any two of the following questions in not more than 300 words. (2x 15=30)**

29. Examine how Santhosh Echiikkanam portrays an unsympathetic society in 'Comala'.
30. Consider the story *The Big Fish* as a critique of global capitalism?
31. Justify the title *Love across the Salt Desert*.
32. Examine how family provides a contradictory force in Tyler's fiction with special emphasis on *Average Waves in Unprotected Waters*.

TTM

**FIRST SEMESTER MTA INTERNAL EXAMINATION**

**MTC 05 – RESEARCH METHODOLOGY**

**Time : 3 Hrs**

**Max. 36 Weightage**

**Section A**

**Short answer questions . Answer all Questions.**

1. What is research ?
2. What are the objectives of a survey?
3. List out any two characteristics of scientific method of research.
4. What is a research problem ?
5. Distinguish between the sources of primary and secondary data.
6. What is sampling method
7. What are the characteristics of a good sample ?
8. What is stratified sampling ?
9. What is meant by central tendency ?
10. What do you mean by mean ?
11. What is chi-square test ?
12. What is the meaning of experimental research ?
13. What is snow ball sampling ?
14. What do you mean by validity and reliability

( 1x 14 = 14 )

**Section B**

**Short essay Answer any seven.**

15. What are the criteria of a good research ?
16. Define sample size
17. How could sampling errors be minimized.
18. Explain the purpose of schedule
19. What is research gap ?
20. What do you mean by tabulation ?
21. Define ANOVA
22. What are the types of errors ?
23. Differentiate pilot study and experimentation
24. Cite two important research problems in tourism business.

( 2 x 7 = 14 )

**Section C**

**Essay questions. Answer any two.**

25. Describe briefly the different steps involved in a research process
26. describe the role of computer in research
27. Enumerate the essential qualities of a researcher.
28. What are the problems that are faced in writing the report of a research.

( 2 x 4 = 8 )

THIRD SEMESTER MITM DEGREE INTERNAL EXAMINATION

Excellent

3. Hypothesis

Hypothesis is the assumption or proposed solutions of a research problem. hypothesis is the suggested solutions the researcher make.

There is various type of hypothesis in research like.

Null hypothesis: it is the no effect hypothesis which the researcher propose primarily denoted as  $H_0$

Alternative hypothesis: if the null hypothesis is wrong we need to create another hypothesis it's known as alternative hypothesis denoted as  $H_1$ .

Simple hypothesis: it state the relationship between single independent variable and dependent variable.

Complex hypothesis: it is state the relationship between multiple variables.

4. Nominal scale

Nominal scale is a measurement technique in the research. it is the most simple and basic scale. Nominal scale assign numbers or symbols to data. Nominal scale is used for an identification purpose. It cannot add or subtract the numbers or symbols. It self have no value.

eg: Runners in a race identified as 7, 8, 10, 13

5. research gap

The research gap is the gap between existent studies about the topic and research problem of the researcher.

research gap help to identify the undiscovered or unanswered

Coordinator  
IQAC  
Pazhassiraja College  
Pulpally

PRINCIPAL  
PAZHASSI RAJA COLLEGE  
PULPALLY 673 579

Questions in relation with the topic. The research gap give information about what have done in the areas of the research problem and what is not done. The researcher take the unanswered questions for further study and try to answer it.

## 6 Random sampling

Random sampling is the element based sampling technique in the sample design. It is the simplest form of sample method. In this type of sampling all the element in the population has the chance to enter in the sample. Random sample further divided in to two.

Complex random

Systematic  
Stratified  
cluster  
geographical  
multistage.

Simple random

Lottery  
Ball Tippet.  
Judgment  
purposive  
quota.

### \* Simple random sampling.

It is the simplest form of sampling method.

1. Lottery method : the data write in a lot of folded paper and put in a bowl. select randomly as the amount of sample need from it.

2. Tippet : the numbers given to the data, arrange the numbers into table. select sample from the table with the help of computer.

### \* Complex random sampling.

Systematic : the number of population is finite in this type. the every  $i^{\text{th}}$  item is selected as sample.

stratified : the heterogeneous population divided into to homogenous subgroup called stratum. select sample from the stratum.

cluster : if the area is big then it divided it to sub group and cluster is selected for study.

geographical : the data are divided according to geography like country, state etc.

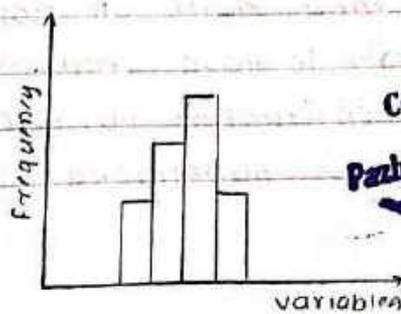

multistage : the sample selected through multiple stages.

## 8 Depth interview

depth interview is the face to face method of data collection where oral stimuli produced by interviewer and oral response produced by interviewee. depth interview is a type of interview where the interviewer ask detailed questions about the topic. it is not a structured interview, the researcher can ask further question about the topic. it is the detailed interview with a experienced person and the interview can be recorded. the researcher get to know the depth of the problem through this interview.

## 9. Histogram.

Histogram is a graphical representation method in the research. It shows the frequency distribution. The bars are placed perpendicular and there is no gap between intervals. The frequency is placed in y axis and variables placed in x axis. Histogram helps in the easy identification and analysis of fact from it.

PRINCIPAL  
PAZHASSI RAMA COLLEGE  
PULPALY 673 579

## 10 Importance of research design.

- Research design is the blue print or skeleton of a research.
- It decide what should be done in the research. It shows what type of data is collected, how the data is collected, what are the sample size etc.
- research design help to keep in track in the research.
- It help to minimize bias and maximize reliability.
- It help to conserve time and budget.
- It helps to have a proper order & well structured in the research.
- research design is various type exploratory and conclusive.
- research design is act as the base for further research like the blueprint created to construct a house.
- research design helps to reliable and consistent through out the study.
- research design help to remain accurate in the study.
- It help to minimize errors.

## 13 measuring & scaling methods.

1. Nominal scale
2. Ordinal scale.
3. Interval scale.
4. Ratio scale.

1. Nominal scale :- Nominal scale is a measurement technique used in research. It is the most simple and basic scale. It assign numbers or symbols to data. nominal scale is used for identification purpose. It cannot be ordered or abstracted.

ordinal scale : ordinal scale is a ranking scale. It give ranks to the data. the value can be show which is greater or small but it doesn't show how much greater or smaller. It can not added or substracted to get a meaningful information.

interval scale : It has the proper interval between data, it can be add or substracted. interval scale shows the absolute don't have absolute zero. eg: Celcius scale & Faren heat scale.

ratio scale : It is the most accurate scale amonge them. It has the absolute zero. example - ie measure the physical feature like height weight etc.

Nominal scale.	no. of runners.	3	8	10
ordinal scale.	rank of runners.	1	2	3
interval scale.	time of finish.	9.1	9.5	9.8
ratio scale.	performance rate.	13.1	13.5	14.1

## Representation method

Sample is selected from the population to represent the whole population. generalisation made about the population by measuring the sample. it divided into two.

- i - probability sampling / Random sampling
- ii - Non probability sampling / Non random sampling.

### probability sampling.

probability sampling every element have the chance to enter in the sample. it further classified into:  
Simple random sample & complex random sample.

#### Simple random sample.

it is the most simple and basic method of sample selection.

#### Lottery method.

the data is write down in to a chit and folded ~~and~~ identically then put it in to a bowl and select the sample according to your sample size.

#### Triplet random table.

there are many random table method but triplet method is more famous one. In this type,

- the data are given numbers.
- numbers assign in the tables.
- choose sample with the help of computer.

#### Complex random method.

it is more complex than simple random method.

# ABSTRACT

Topic :- cuttings and it's type

"cuttings and it's types" in this method a portion of stems, root or leaf roots and shoots by placing them in same rooting medium under the favorable conditions. Based on plant part used the cutting can be grouped into four i.e root cutting, leaf cutting, leaf bud cutting and stem cutting. Root cutting is two type i.e Root section and Tuberos root. leaf cutting is four type leaf bud, leaf petiole and leaf section. stem cutting is seven type i.e hardwood, semi-hardwood, soft or green wood, herbaceous, cane, Rhizome, Tuber.

# GLOBAL ENVIRONMENTAL ISSUES

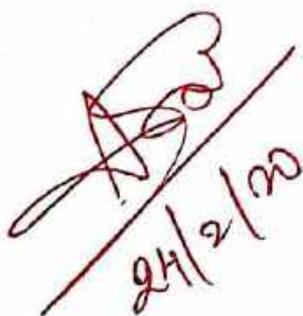

## ABSTRACT

'Global environmental issues' a phrase that refers to the effect on the climate of human actions, in particular the fire on fossil fuels (coal, oil & gas) & large-scale deforestation, which cause emissions to the atmosphere radiation emitted by the earth's surface & act as blankets over the surface keeping it warmer than it would otherwise be. connected with this warming are changes of climate. The basic science of the "Greenhouse" effects that leads to the warming is well implicit. More detailed understanding relies on numerical models of the climate that integrate the basic dynamical & physical equations describing the complete climate system. Many of the likely characteristics of the resulting changes in climate (such as more frequent heat waves, increase in rainfall, increase in frequency & intensity of many extreme climate events) can be identified. Substantial

uncertainties remain in knowledge of some of the feed-backs within the climate system (that affect the overall magnitude of change) & in much of the detail of likely regional change. Because of its negative impacts on human communities (including for instance substantial sea-level rise) & on ecosystems, global warming is the most important environmental problem the world faces. Adaptation to the inevitable impacts & mitigation to reduce their magnitude are both necessary. International actions is being taken by the world's scientific & political communities. Because of the need for urgent actions, the greatest challenge is to move rapidly to much increased energy efficiency & non-fossil-fuel energy sources. This paper presents the first board based research on the impact of climate change on historic buildings, buried archaeology, parks & gardens research coincided with the publication of the climate change scenarios & other studies assessing regional climate change & the impact on nature conservation and gardens

ASSIGNMENTS AND SEMINARS: DEPT OF HISTORY - 2016-2017

HIS1B01 THE TRENDS IN HISTORIOGRAPHY

ASSIGNMENTS

- \* Marx and Materialism
- \* Local History preparation
- \* EH CARR and Causative analysis
- \* Sexuality - Michael Foucault
- \* Romila Thapar's view on Historical consciousness in Early India

SEMINARS

- \* Meaning of Historiography - Quasi History
- \* S.B. Burry and conceptualization of the idea of Progress
- \* Food History - Felipe Fernandez - Armenta
- \* Harihara Purana Tradition

HIS3B03 INFORMATICS AND HISTORY

ASSIGNMENTS : History of Computers, Features of Modern personal computers and Peripherals.

- \* Mobile Computing - sms, mms, wireless Applications
- \* Basic concepts of IPR - copy Rights and Patents.

SEMINARS

- \* Technology and Society
- \* The Internet and Access Methods
- \* Free and open Source Software Debate

HIS3B04 HISTORY OF EARLY INDIA

ASSIGNMENTS \* Eastward Movements of Vedic People - Later Vedic Phases.

- \* 16 Mahajana Padas
- \* Post Gupta developments.

SEMINARS

- \* Rigvedic Religion
- \* Mauryan Rule.
- \* Legacies of Gupta
