REPORT ON STUDENT AS TEACHER 2019-2020

Teaching plays a vital role in the levels of understanding learning goals, expectations, strength and weaknesses which lead to improvements at work or professional development. The student who are doing first year to third year they attend their student-teaching programme in June to February of each year. The participants were randomly selected from the cohort of thirty one (31). Dr. Jomet Sebastian selected two (2) student-teachers based on their easily accessibility. Most of the student-teachers to some extent can do self-diagnosis as they were able to identify their learning need and challenges, which will help them to develop their learning.

Ms. Aiswarya Thomas and Mr. Arjun k had taken the class on July 4, 2019.

DEPARTMENT OF BIOCHEMISTRY
REPORT ON STUDENT AS TEACHER 2016-2017

Teaching is one of those things that nearly everybody thinks he or she can do better than the experts. Everybody has taught something to somebody at one time or another, after all. We begin our amateur teaching careers as children by imposing our superior knowledge on our younger siblings or playmates. As students, we pass judgement among our peers on this or that teacher's capabilities.

Teaching plays a vital role in the levels of understanding learning goals, expectations, strength and weaknesses which lead to improvements at work or professional development. The students were selected from the 2nd M. Sc Biochemistry class. Dr. Jomet Sebastian selected..... as student-teachers based on their ability. Student as teacher program will help them to develop their learning.

Ms. Athira MR, Liliya, Aneesha vargees & Gayathri had taken the class on July 4, 2016.
