# CHANDRAYAN 2

India's second mission to the moon

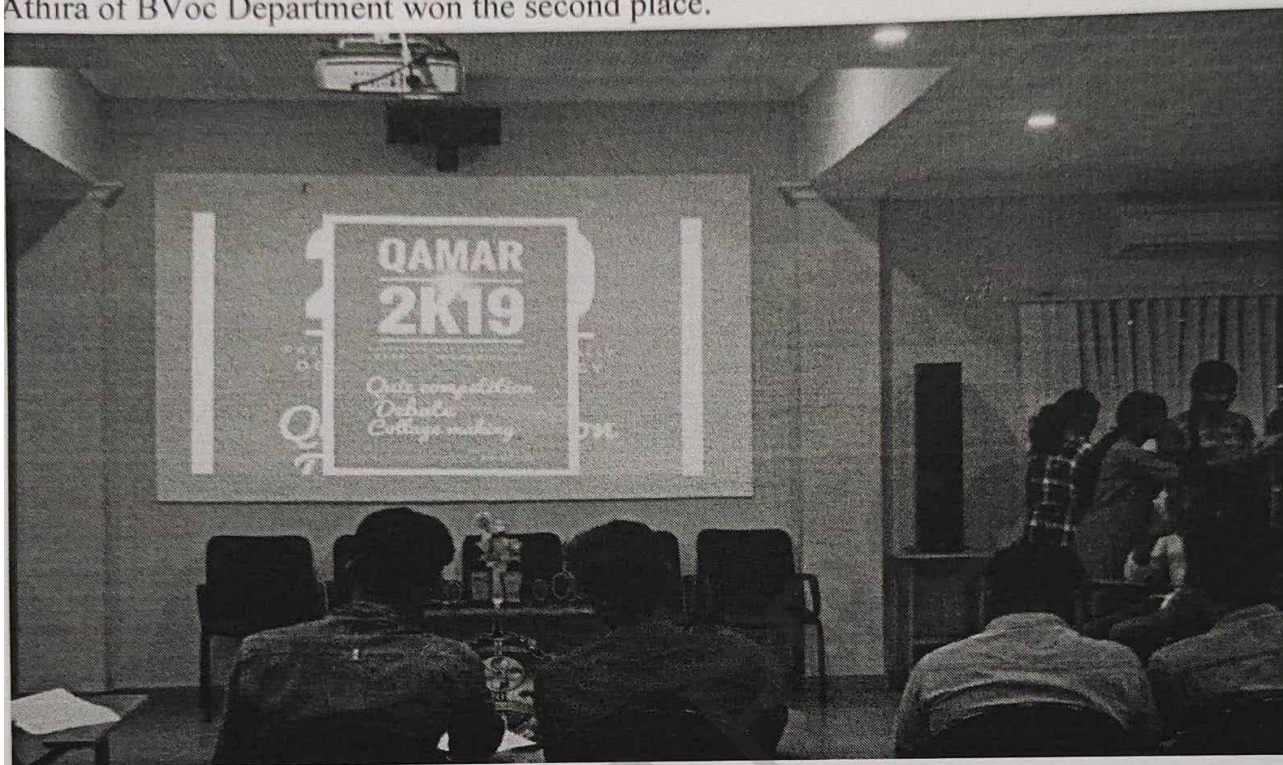

- ★ Chandrayaan 2 will be launched on July 23rd, 2017
- ★ days after the first take off had to go to a technical glitch the Indian Space Research Organisation announced on Thursday

- ★ The Chandrayaan 2 will be the first ever mission in the world to explore the South pole of the moon
- ★ the South pole is where researchers think water ice on the lunar surface can be readily observed evidence for which was gathered by Spectrometers aboard India's previous moon mission launched in

2008
